## Design with a purpose—

Studio Luz Architects  
is a forward-thinking practice  
that links responsible design  
and sustainable construction  
with built material expression.

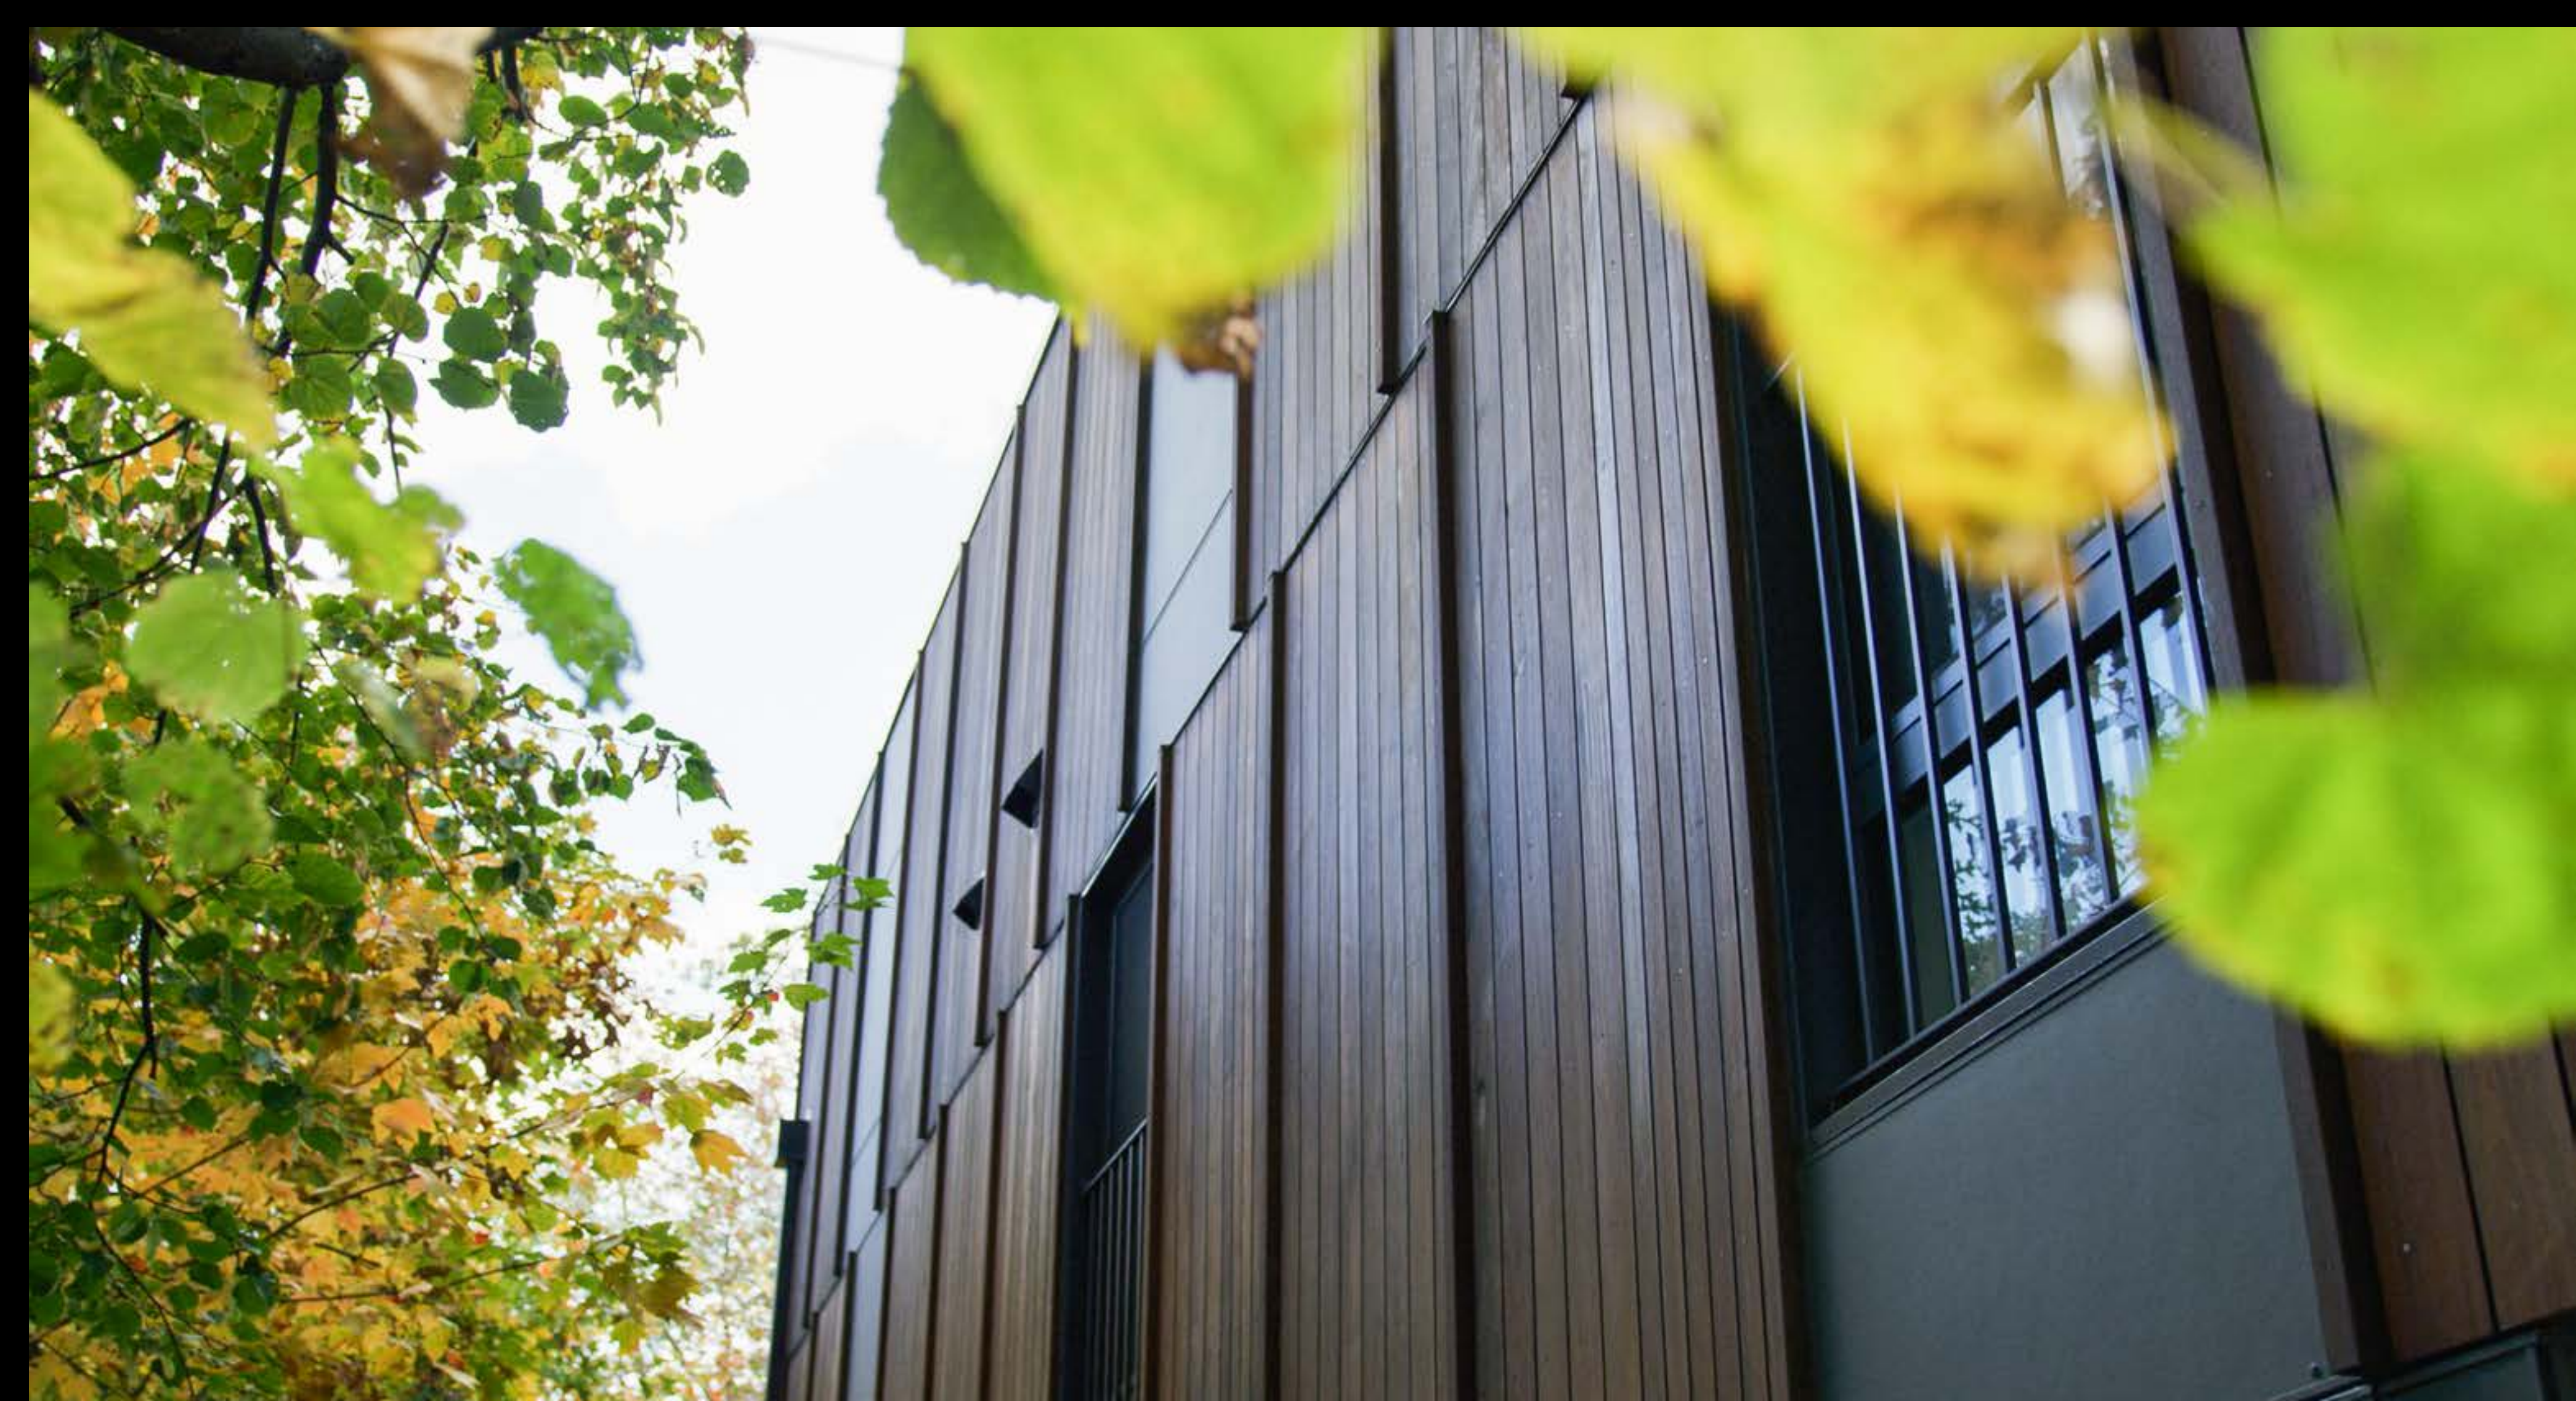

# Modern, Sustainable, & Equitable Design—

Working across commercial and retail, community and institutional, as well as multi-unit housing and residential projects, we strive for results that support a multitude of community members and realize our client's goals.

Studio Luz Architects are prominent community leaders as well as professionally recognized and awarded trailblazers in their field.

Our designs—

We create architectural dialogues that honor local and cultural perspectives to transform urban spaces.

# Social & Environmental Accountability—

Studio Luz prioritizes social responsibility and sustainable construction practices with thoughtful attention to detail and intersectionality to create engaging, beautiful work.

# Studio Luz is committed to environmentally sustainable practices that are firm-wide, project-based, and in stride with the profession at large.

We work closely with our clients to meet and exceed their sustainability goals. Our firm is a member of the United States Green Building Council, we have LEED accredited professionals in our office to take our clients through the LEED certification accreditation process, are signatories to the AIA 2030 Challenge of creating buildings that are carbon neutral, and are pursuing Passive House Institute certifications for multiple projects.

# Always Principal led—

The principals of the firm are involved in every project we do, allowing each client to gain direct access to the most experienced professionals.

- Open Communication
- Collaborative Design Process
- Integrated Project Delivery

# As a firm, we know that diverse teams perform better.

Studio Luz Architects has embraced a design approach rooted in explorations of culture, identity, and community. Each project we touch is enriched by having a multitude of perspectives and influences on the design process.

With social responsibility at the heart of every project we take on, from who we collaborate with to the materials used and the locations we build in, Studio Luz is well established to show and tell intriguing, inspiring, and educational stories that extend far beyond the construction site.

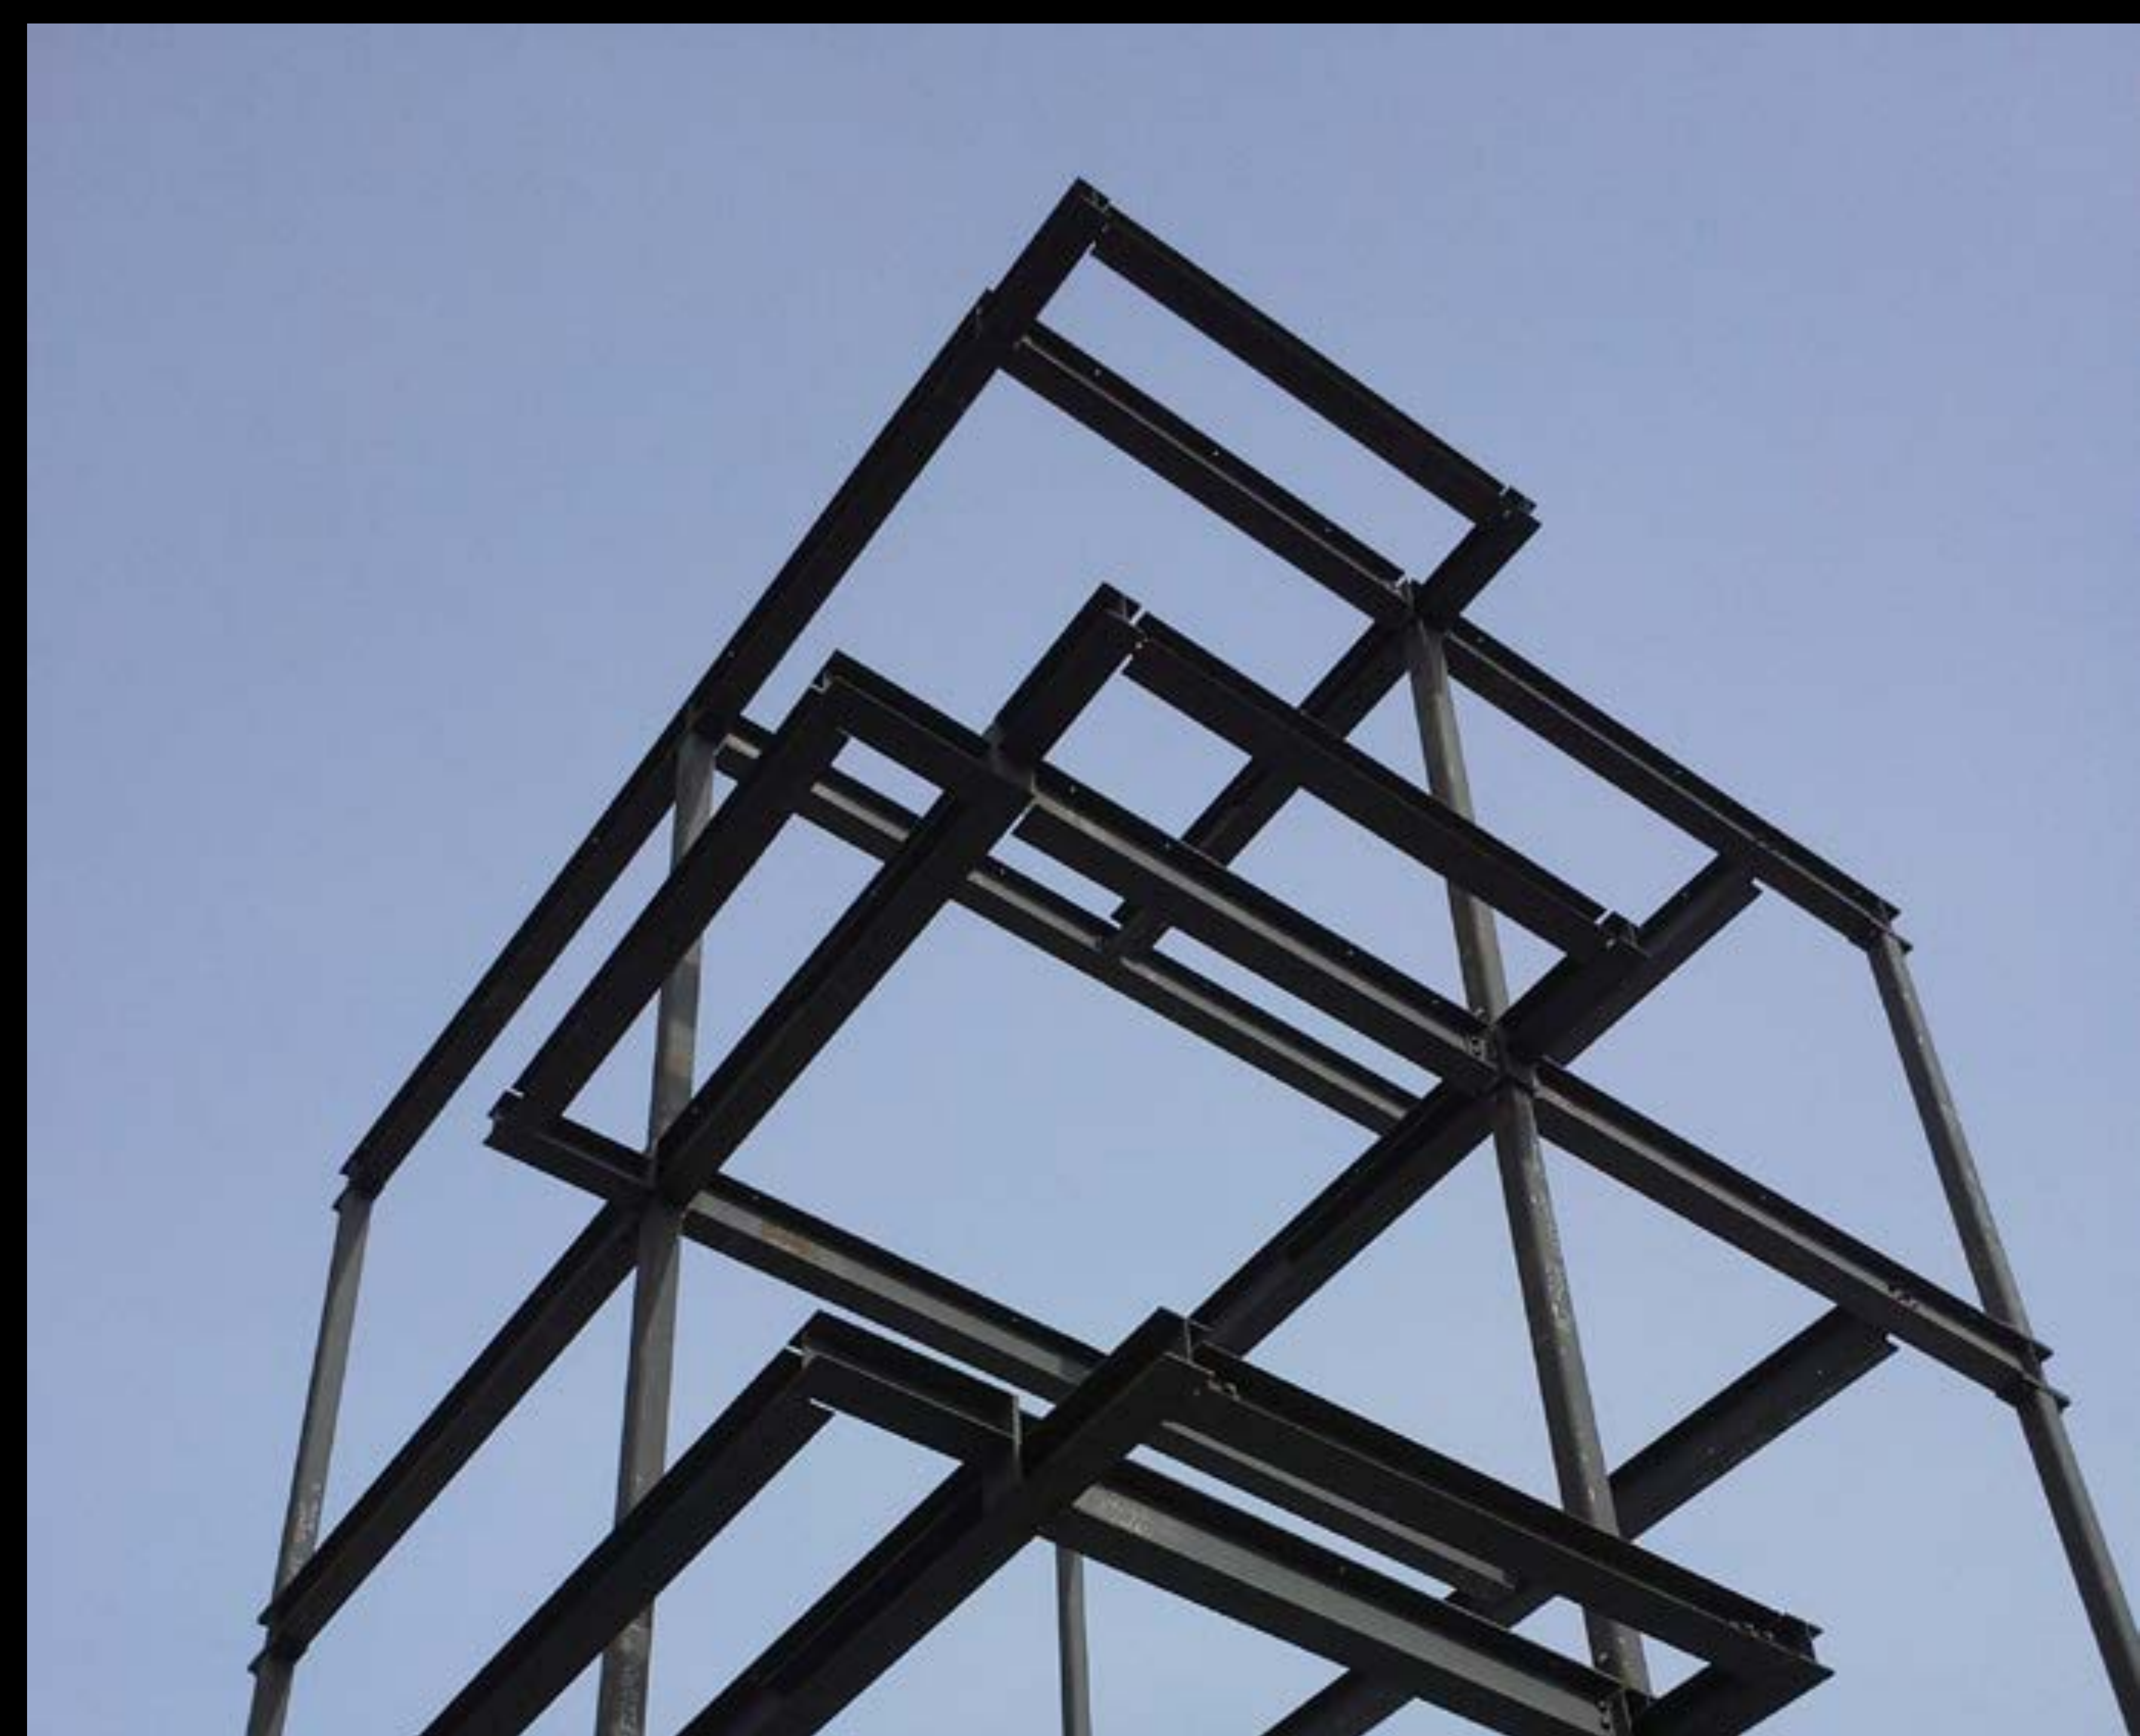

# At the forefront—

Maintaining fluency in cutting-edge technology allows us to explore our ideas and bring them to life in the physical world. We have developed a reputation for creative and professional excellence based on our ability to utilize the proper tools to create modern design that is both beautiful and responsibly constructed to improve the lives of others.

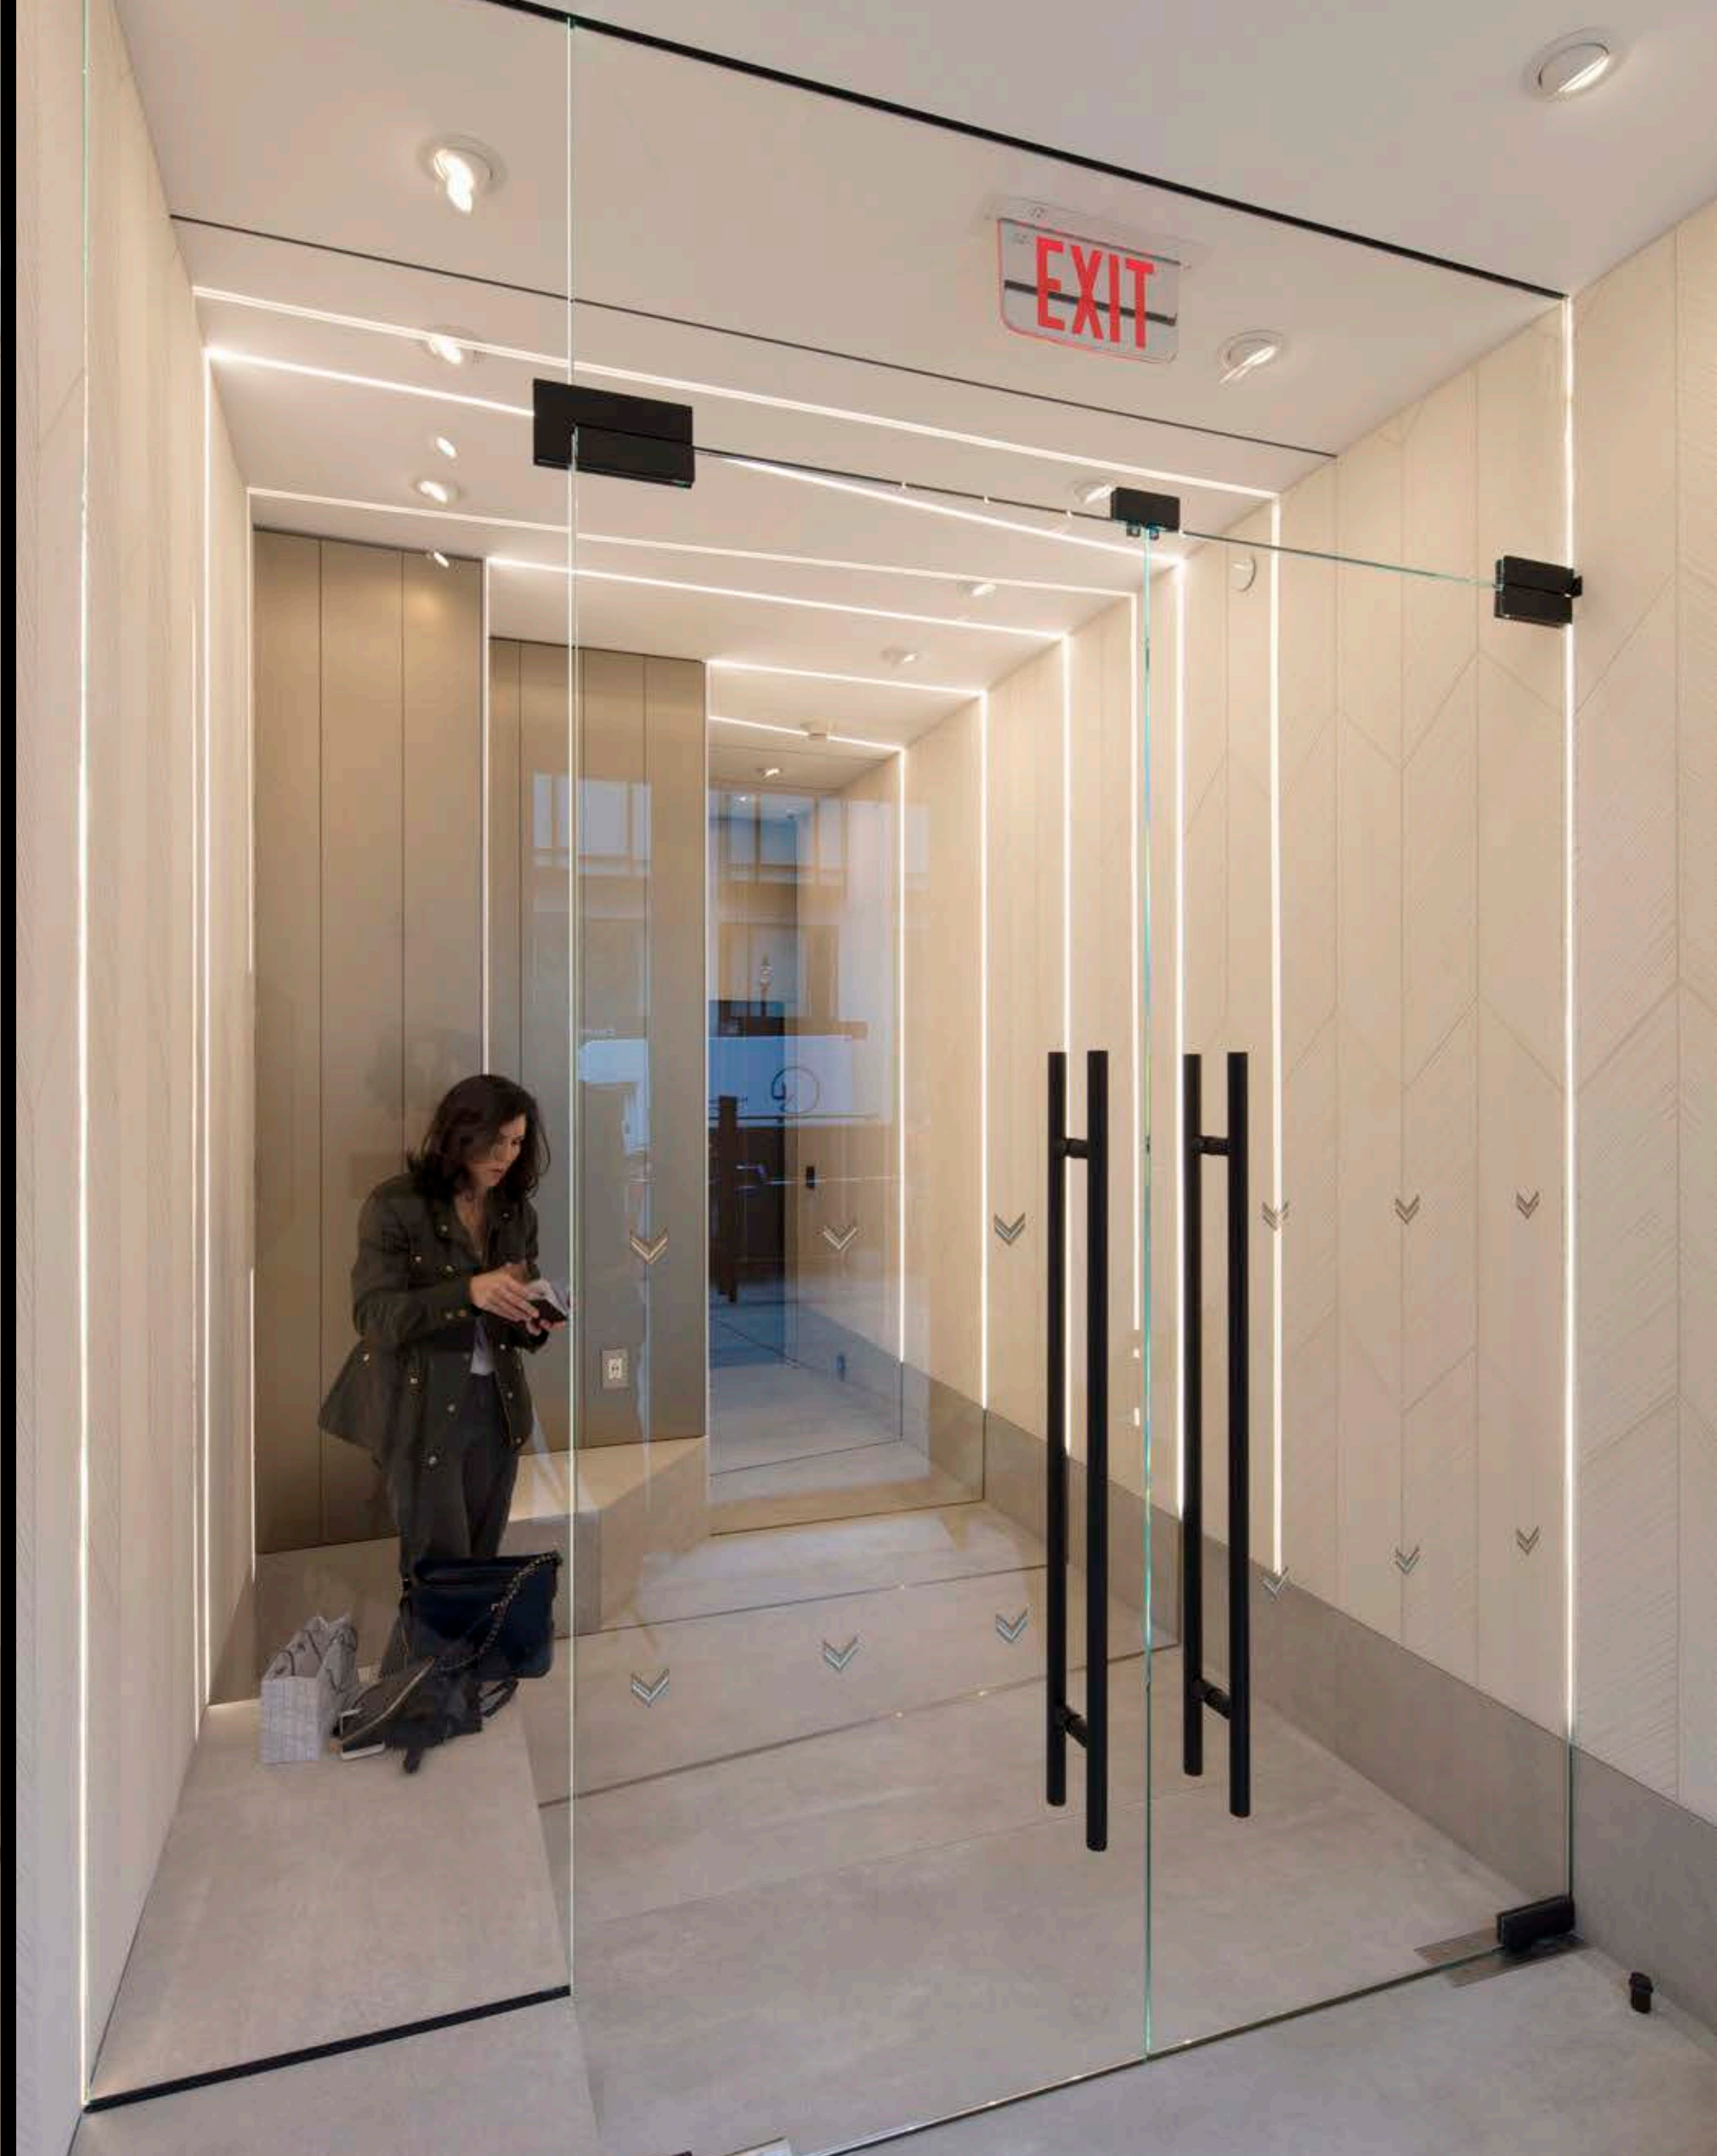

# Where technology meets community.

The Studio Luz Architects team has extensive experience using the latest computer software, including Building Information Modeling (BIM) to produce design documentation drawings and photo-realistic renderings. We are also well trained to build through digital fabrication technologies using CAD-CAM software.

All aiding in our mission to bridge moments of human connection, eco-awareness, and creative problem solving.

—INTRODUCTION

—RESULTS

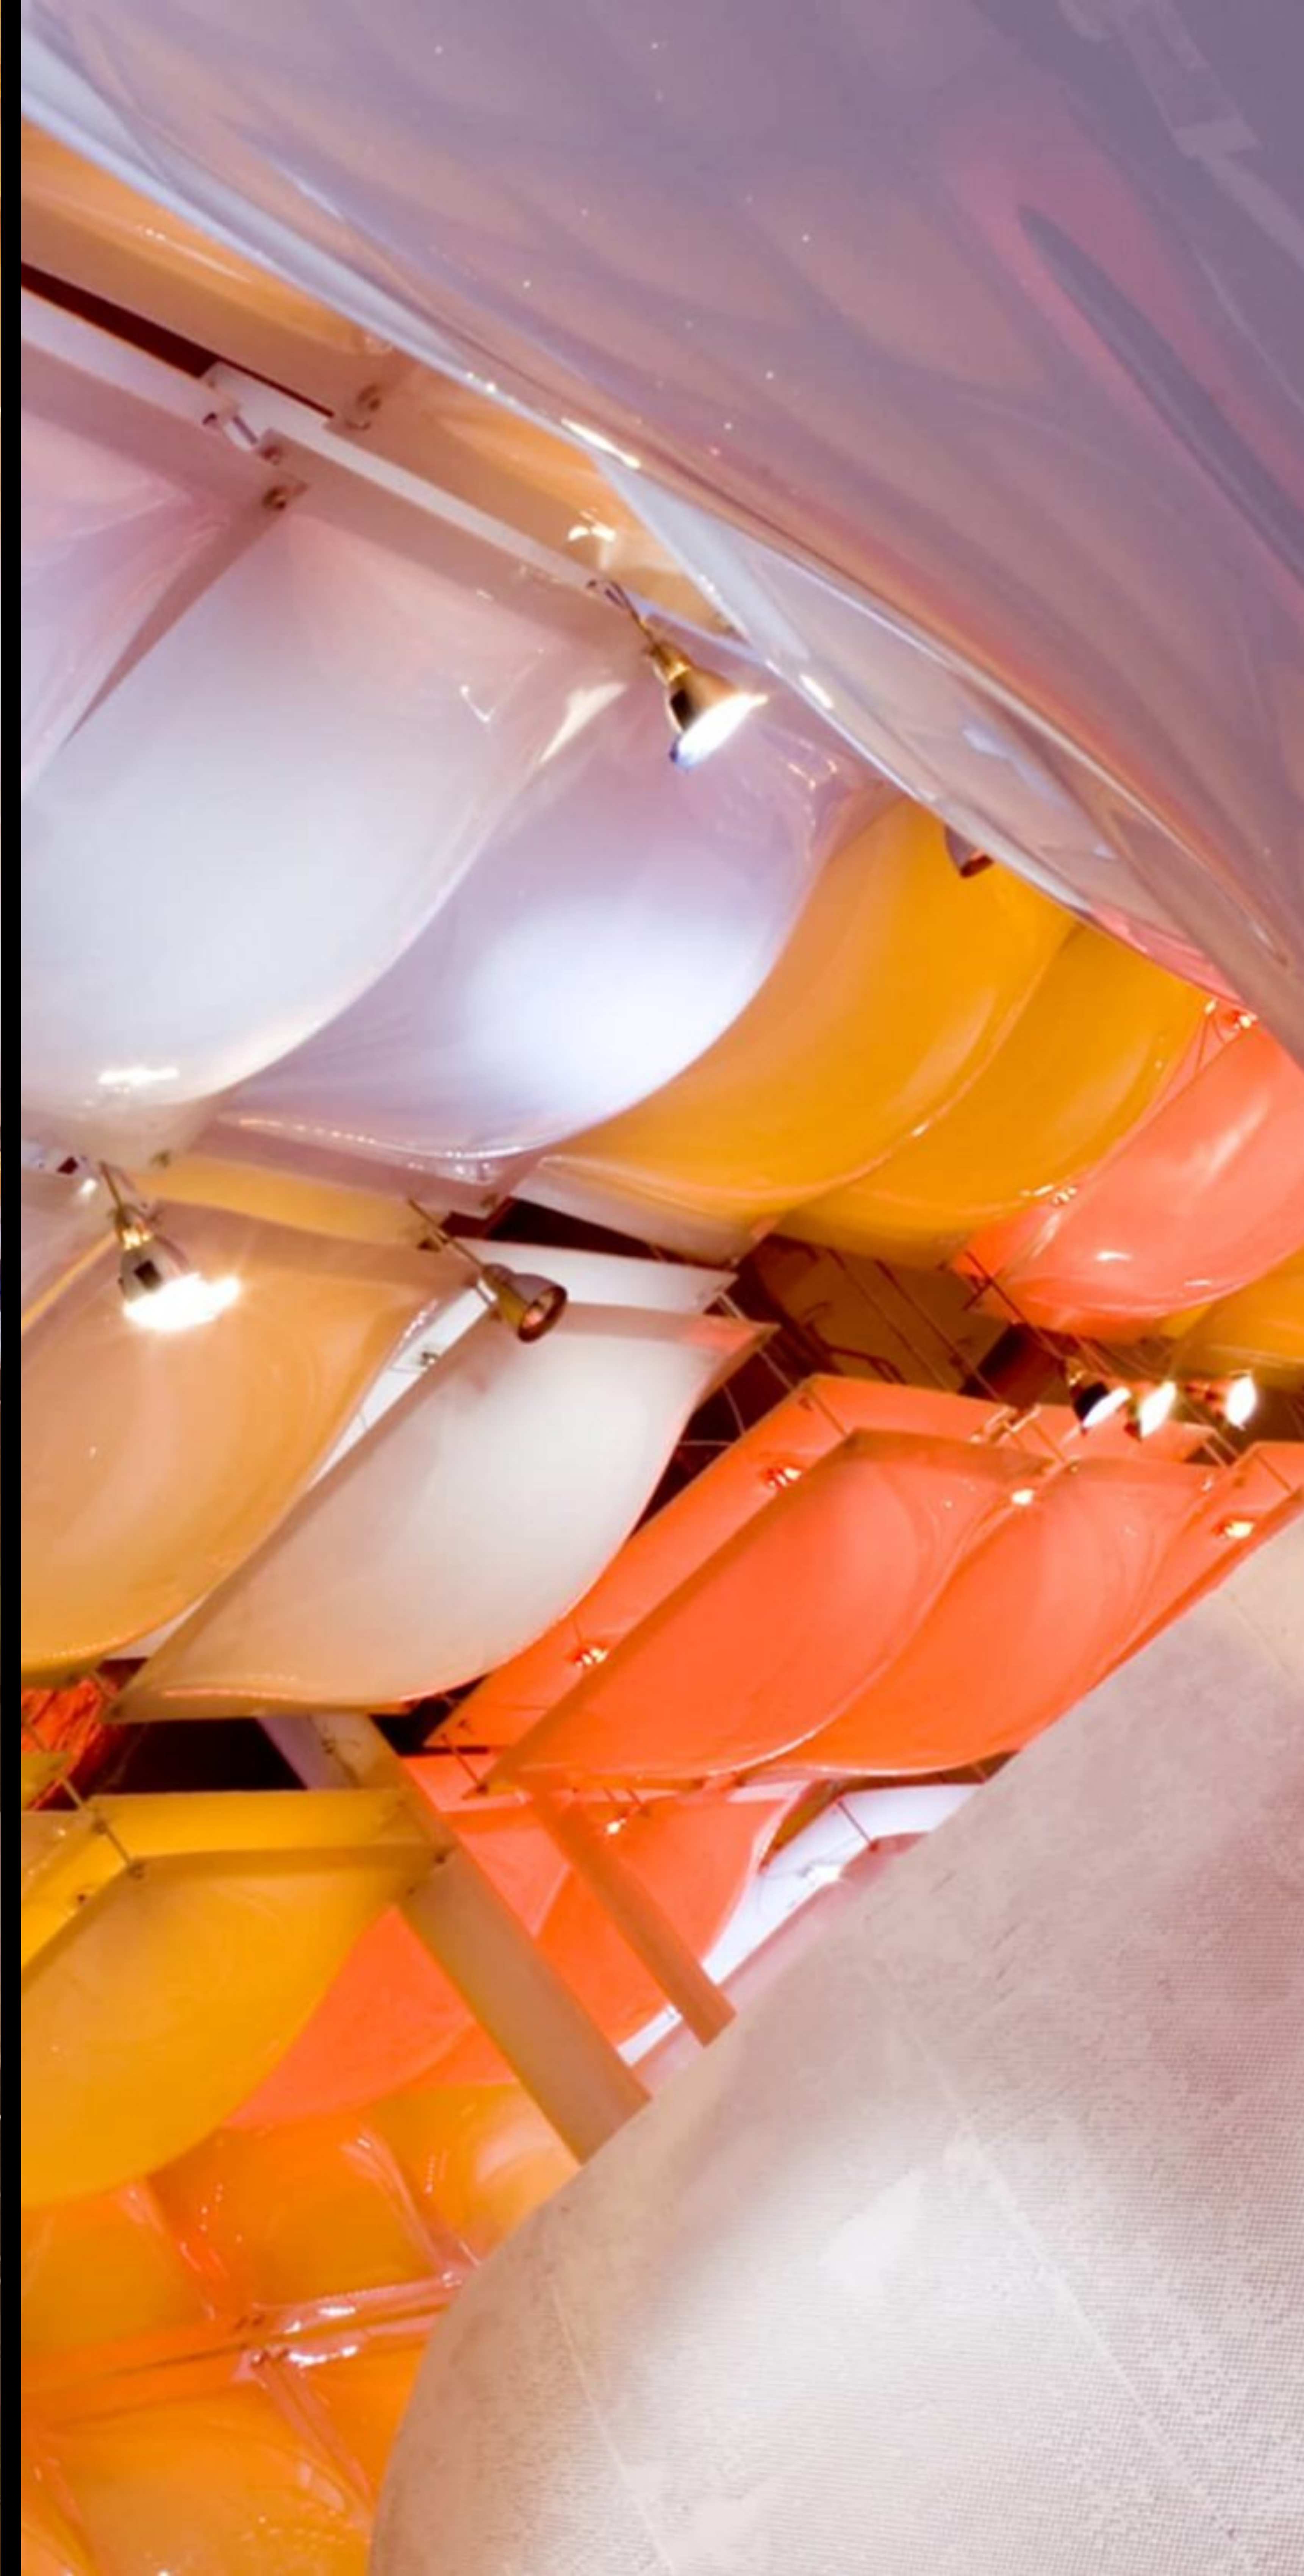

A man in profile, wearing a dark shirt, is touching a vertical wooden post with his right hand. The background is a soft-focus view of trees with green and yellow autumn leaves. The text "Our promise—" is in the upper left, and "Craft with intention." is in the center.

Our promise—

Craft with intention.

# Creating exceptional work with a strong community presence.

With our focus on collaboration, resilience, and social responsibility, we cherish and promote material craft that draws out the exceptional possibilities within each project.

Adaptable to any environment, we act as a beacon of knowledge, charged with passion and curiosity.
